EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Peter Loffler on March 22, 2004.

The application has been amended as follows:

IN THE SPECIFICATION:

On p. 6, line 14, change "figure 2" to --figure 1--.

IN THE DRAWINGS:

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Applicant has agreed to put Fig. 2 on a separate drawing page for clarity purposes since Fig. 2 includes two parts.

Also, sensor **32** as recited in the specification on p. 7, line 25 will be shown in drawing Fig. 1.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Art Unit: 1744

3. The above changes were made to clarify Fig. 2 by including this figure on a separate drawing page and to also provide for reference numeral 32 that is not shown in the drawings. A change was also made to the specification for correction and clarity purposes.

4. The following is an Examiner's statement of reasons for allowance: Claims 1-18 are allowable over the Prior Art since the Prior Art fails to adequately teach the combination of all recited limitations as set forth in each of claims 1 and 10, particularly, a body member having an extension extending therefrom and a cleaning implement attached to the extension. It should be noted that the term "extension" here which has a cleaning implement attached thereto has been construed by the Examiner as actually extending away from the body member of the floor cleaner as opposed to being some type of "protrusion" of the floor cleaner that only extends within the confines of the floor cleaner itself.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
